STRAP

Genuine leather or fabric
slip through double layer

WATER RESISTANT

50m / 165ft

SNAP DOWN CASE BACK

SNAP CROWN

LUMINOUS

Hands with luminous

Less is more. A rule that also applies to watches and which Nautica has followed for the Caprera, a “passe-partout” that can be worn in all circumstances. With its minimalist features, the slim and linear case, resistant to depths of up to 50 meters, is perfect for people who know that every minute is precious and who want to live their lives in style. The clean dial features references to the Nautica universe with three different chromatic interpretations and combinations of the nautical flags. There are also two variations for the strap: fabric and leather. Because time goes by and fashion changes, but one thing is truly timeless: style. And in its simplicity, Caprera is the pure essence of it.
