

NAUTICA

MOVEMENT

Three-hand with date

FEATURES

Date window at 3 o'clock

CASE

Ø 44 mm stainless steel case

STRAP

Recycled fabric strap

WATER RESISTANT

100 m / 330 ft

SNAP DOWN CASE BACK

SNAP CROWN

NAUTICA LOVES THE OCEAN COLLECTION

Did you know:

A single plastic bottle lasts 450 years in the ocean.
150 million of tons of plastic float in the ocean today.
1 million marine creatures die every year for plastic trash.
By 2050 we'll see more plastic than fish in the ocean.

Now is the time to act!

We can't wait any longer for a change, and Nautica has developed for the upcoming season a line that proves everyone has the chance to make a difference.

We started from the straps:

Nautica cooperates with KVADRAT A/S, a Danish company creating pioneering textiles that continuously seek to minimize environmental impact. Using their revolutionary fabric REVIVE 1, made by 30 common plastic bottles per linear meter, we ensure to:

- Minimize the use of energy, chemicals and the production of CO2
- Use plastic that would otherwise pollute our environment.

Both watches in this collection have this unique detail and are completed by the unmistakable quality of Nautica timekeepers and touches of colours coming from Nautica heritage.

We feel it's our responsibility to help preserve the oceans, we want to be at the forefront of the sustainability design, and this is just the beginning!

Join us and start the blue revolution, together we can make the difference.
