Two souls, two worlds, but just one watch: Ocean Beach. Red, like the passion which drives men to seek new thrills. In steel, a symbol of the strength and resistance needed to overcome one's limits. The look of this watch designed to surprise might have changed, but the core hasn't. Starting with the 46-millimetre case, which houses a Japanese chronograph movement with a day indicator set at 4 o'clock which can withstand depths of up to 100 metres. Travel lies at the heart of the Ocean Beach. Its external red bezel shows all 24 time bands, each with its own time zone. More than just a watch, it is a world timekeeper, designed for the modern traveller; its alarm function will ensure the wearer never misses a connecting flight. This multifunction watch features a silhouette designed down to the finest detail. It embodies the bold character and class of Nautica, created with unique elements to thrill sporting and dynamic spirits. A watch for those who never want to go unnoticed.
