

PACIFIC BEACH LADY COLLECTION

In the North Shores of San Diego there's a special place called Pacific Beach, renowned for its energy, its waves and its people always ready to challenge the Ocean, riding the currents on their surf boards. It's this place that gave inspiration to one of the most successful collection for Nautica.

This Spring Summer we take inspiration once again from this iconic setting and introduce a special line dedicated to Ladies.

The 3-hand version is characterized by the 36mm stainless steel case and the combination of colors that provide a feminine identity while keeping a boyfriend-inspired look.

The connection with the nautical world is emphasized by monotone Nautica style flags as indexes, while the bracelets in stainless steel, available both in monotone or in a two-toned version, emphasize the elegance of the collection.

For the more demanding Sailor ladies, Nautica has created a Box set, where the beautiful combination of rose gold and blue recurs on the case-dial contrast and on the bracelet and silicon strap alternative.

Completing the collection are two multifunctions, featuring three small subdials displaying day, date and 24-hour time, and are available in the stylish and very Nautica color combination of stainless steel & blue or rose gold and white.

Live the California dream, in Nautica style.
